A CEMETERY SITE

Discussion Results in Reference to Committee.

DISTANT POINT SUGGESTED

Malawa May Have Homes—Will be Investigation—Home for Consumptives.

(From Thursday's Daily.)

The Executive Council and the Board of Health held a joint meeting yesterday afternoon to deliberate in regard to the selection of a cemetery site and the establishment of a home for consumptives. The following were present: President Dole, Attorney General Smith, Minister King, David Dayton, A. S. Cleghorn, F. A. Schaefer, Dr. Emerson, Dr. Day, Dr. Wood, Dr. Girvin, Dr. Herbert, Dr. Howard, H. M. von Holt, Geo. W. Smith, Mark Robinson, Henry Waterhouse and others.

President Dole remarked that the matter of suitable cemetery sites was one in which all should be interested, as it is one of vital importance. He then referred the gathering to Attorney General Smith, who had made a thorough study into the subject.

Mr. Smith explained that there were eighteen cemeteries scattered throughout Honolulu, which number was far too great. He had looked over all the ground carefully with a view to selecting a site suitable, and found that there was one of two objections to most places. Either water was found a slight distance below the surface or else coral rock was struck. There were, however, two sites, either one of which might prove serviceable.

Plans were then shown of the Kahaunui tract, situated near Moanahua, and of some ground out in Moana district.

It was found that this latter property could not be obtained inside of ten years, for the purposes wanted, without a law suit. A provision had at one time been made for the using of this land for cemetery purposes, but had been lost sight of in a subsequent lease.

The main objection to the Malawa property was that according to the present outlook it would not be very long before that locality would become populated, and it is not deemed advisable that a cemetery should be in a residence section. Along this line, it had been suggested to Mr. Smith that there was some fine land at Diamond Head, but this was deemed too inaccessible.

A discussion was taken up by the assembly as to where the cemetery should be situated. Dr. Day advocated Pearl City or a site far distant, as a cemetery should not be located near town. Transportation by the railroad could be reduced to a minimum if Pearl City were selected.

Mr. von Holt suggested Kalihi, but as this is in close proximity to the water supply it was not considered expedient.

In answer to a question as to whether the Oahu Cemetery Association would go ahead with the work after the site was selected, Mr. Dayton said he could not speak for the Board, but thought it undoubtedly would do so.

After considerable discussion the following committee was appointed to confer together and look into the matter thoroughly: Board of Health: G. W. Smith, Dr. Day; Cemetery Association: A. S. Cleghorn, H. M. von Holt; Executive Council: President Dole and Attorney General Smith.

The matter of a consumptive home was next taken up. President Dole reminded those present that last year the Queen's Hospital had memorialized the Legislature that it provide a home for consumptives, or at least a ward in the annex to the hospital. Objection was raised at the time by owners of property near the hospital.

Statistics were read showing that in the last year there had been an alarming increase in the number of deaths from tuberculosis.

Dr. Wood explained that the need of some segregation of consumptive cases was a pressing one. They could not be admitted to the Queen's Hospital for several reasons.

Discussion followed in which it was brought out most forcibly that a refuge is absolutely necessary. People do not realize that consumption is really contagious and grossly careless.

Everyone present thoroughly accorded with the idea that a separate home, situated in some dry, elevated spot, should be established at once. A committee of three, with the privilege of being increased to five, was appointed, who should inquire into the cost and location of such a home. The members are: Dr. Wood, Dr. Herbert, G. W. Smith. President Dole was made chairman of the committee.

More Open Land.

About 1500 acres of school lands are to be thrown open in a very short time. They are situated in the Kohala district on Hawaii, and comprise some of the finest land in the islands.

They are in the upper district and have an average elevation of 300 feet. The land is very fertile. There is a good rainfall throughout the year, and a continual plenitude of moisture in the air.

The work of opening up the land and laying out the lots has already been completed. The appraisal alone is lacking, and when this is done the property will be immediately advertised and ready for application. The sub-agent has been instructed to proceed with the appraisement, and at the same time the conditions and con-

siderations for obtaining will be submitted. There will also be thrown open in the near future some land in the Hahaione district and in the famous Olan coffee belt.

J. F. Brown, agent of public lands, is still on Molokai on business in regard to roads and trails.

LIFE CONVICT DEAD.

Kamalo, a convict who had served but little more than a year of a life sentence, died at Oahu prison yesterday afternoon. Decedent was an Hawaiian, aged about 32 years. His crime was the killing of a Chinese woman near Waikeke Nov. 29, 1897. Kamalo was a hunchback and a vicious fellow. His victim was the wife of a fisherman. The house was watched till the husband had gone to the beach and beat the woman to death. The body was found outside and was badly bruised. Kamalo seemed fair to escape till information was given by a woman. Trial at Lahaina resulted in a verdict for murder in the second degree. It had been the intention of Kamalo to secure money and some jewelry from the house. The convict was a consumptive, but was not very ill till within the past few days. He was a good prisoner and had confessed repentance for his crime. The case of the murder of the Chinese woman attracted much attention at the time. It had been preceded by a number of killings amongst the Japanese, all of which were savage in the extreme. One Japanese had stabbed a woman to death and another had killed a woman with a knife and beat her child to death at the same time. Both of these Japanese were hanged. Kamalo was ignored by the officers for a time. The general impression at first was that a Japanese must be guilty of the crime.

Beet Sugar Trust.

WASHINGTON, Jan. 28.—News that a beet sugar trust is being organized in New York created a stir among officials here, and threats were freely uttered that if the trust was successfully organized with the enormous capital of \$10,000,000, as is proposed, Congress will take off the bounty of a cent a pound now paid by the Government for beet sugar. This threat is not confined to the Democrats and other habitual octopus-hunters, but Administration men say that on the day the beet sugar trust is organized, that day, if Congress is in session, the bounty will come off.

Drink PURE WATER.

If the advice given in those three words is heeded, good health will follow. City water is not good for many reasons, principally, because it is contaminated with vegetable and putrid matter of all descriptions. A simple analysis shows this to be a fact.

EXERCISE

Our doctors are busy treating patients who are suffering from complaints, more especially malarial disorders, which will be materially benefited if they drink a water that is pure and possesses curative features, as does Bartlett Spring Water.

DUE

Ask your family physician about the water, and if he is honest he will endorse its use.

All who have drank the water speak in the highest of terms for it.

This climate demands the use of such a water and you cannot afford to be without it.

VIGILANCE.

We will serve free of charge a glass of this wonderful natural Spring water at our Soda Counter to all who care to come and test its virtues. We deliver the water to your home in case lots at \$6.50 for 50 pints, \$9.50 for 50 quarts.

TIMELY TOPICS

February 4th, 1899.

In the opinion of expert cowboys and ranchmen and their idea in this instance is regarded as proof positive, and accepted by all who ride the horse, whether it be for pleasure or on duty, the

MEXICAN SADDLE

is as near perfect in construction and general appearance as it is possible to make a saddle. A great many features of the Mexican Saddle resemble the old Hawaiian Saddle, made by the natives years ago and which seems to grow in greater demand as they become scarce. The tree of this saddle is identical; if possible the Mexican is an improvement in that it is beautifully stamped and decorated, has complete box stirrups and is well finished.

The saddles range in price from \$25 to \$40.

Our Cotton Mamba Tie Ropes are very strong with convenient snap on end. Prices are very reasonable.
